

## **Invitation to Discussion of Ervin Lazlo's *Science and the Akashic Field***

We would like to invite you--and anyone that you'd like to bring--to a discussion of Ervin Lazlo's *Science and the Akashic Field* to be held in our downstairs seminar room on Saturday morning, October 22, from 9 AM to Noon.

TJ Kapacinskaskas will lead a topical discussion of principle ideas in Lazlo's text. The "purpose" of which is a preliminary exploration of the relevance of "new paradigm" physics (NPP = new paradigm physics) for depth psychology and clinical practice. Passages from Lazlo will be read to help identify the salient ideas in his theory and will be the basis of an open-book discussion. We will raise questions as to where clinicians go from the findings elucidated in the text.

TJ will also reference a paper by Jean Houston: Consciousness is the Quantum Field of the Cosmos, found in What Is Consciousness? pp. 5 - 32, by Lazlo, Houston, and Dossey; as well as chapter 10, *The Healing Field* in The Field by Lynne McTaggart, pp.181-196.

If you would attend please RSVP to 574.287.0260 or [tjk1739@comcast.net](mailto:tjk1739@comcast.net) .

If you would like copies of the Houston/McTaggart materials, please let us know by email so that materials can be scanned and sent to you. If you have a chance to read the texts beforehand, so much the better but it is not required.

Thomas J. Kapacinskaskas & Judith A. Robert
